

Die neue Rechnergeneration 2018

Die Verwaltungseinheit Informationstechnologie (ZID) ersetzt im Jahr 2018 eine große Anzahl der PCs. Zum Einsatz kommen die Lenovo ThinkCentre M910q Tiny. Die PCs haben eine sehr kompakte Bauform (USFF = UltraSmallFormFactor). Die verbauten Komponenten ermöglichen einen flüsterleisen Betrieb, so dass diese Rechner am Schreibtisch zum Einsatz kommen werden.

Im Zuge des PC-Austauschs stellt die Verwaltungseinheit Informationstechnologie (ZID) einheitlich das Betriebssystem von Windows 7 auf Windows 10 um. Auch beim Microsoft Office wird der notwendige Schritt von der Version 2010 zur Version 2016 vollzogen.
